Potential competing interests: No potential competing interests to declare.

- Please ensure consistency in using different key terms.
- Please improve the introduction section by providing the background, gaps, and -----Contributions of the study in a more specific way. A couple of examples from real-life examples would enhance the motivation of the study.
- The significance and innovation in the research problem should be explained.
- The literature review should be enhanced by presenting a critical review.
- Please explain the novelty of the methodology applied in this study. This is the weakest point of this paper.
