Review of: "Neuro-Fuzzy-Based Adaptive Control for Autonomous Drone Flight"

Nihal Dalwadi

Potential competing interests: No potential competing interests to declare.

1. The abstract appears somewhat confusing; we encourage the authors to revise and clarify its content.

2. The introduction section seems incomplete; please incorporate citations from more recent relevant journal papers and provide a robust justification for your proposed scheme.

3. The paper contains numerous typos and grammatical errors. Kindly thoroughly review the manuscript and rectify these issues.

4. Figures are not visible clearly. Authors are anchorage to regenerate the figures/graphs with suitable background and line colors

5. The conclusions section needs to be rewritten with greater depth and supported by data for enhanced clarity and impact.
