Therapeutic Ex-vivo-treated Autologous Central Memory T Cells

National Cancer Institute

Source

National Cancer Institute. *Therapeutic Ex-vivo-treated Autologous Central Memory T Cells*. NCI Thesaurus. Code C154280.

A preparation of autologous ex-vivo treated central memory T (T_{cm}) cells with potential immunostimulatory activity. Upon isolation and ex-vivo treatment through as an of yet not elucidated method, the therapeutic ex-vivo-treated autologous T_{cm} cells, upon reintroduction into the patient, can activate an antitumor immune response which may eradicate tumor cells.
