The paper entitled "Exploring the Significance and Medicinal Potential of Rubus fraxinifolius: A Review of Ragimot Wildberry" is a review paper which discusses the health-promoting properties of Exploring the Significance and Medicinal Potential of Rubus fraxinifolius: A Review of Ragimot Wildberry. The review comments on this paper include:

1. It's better to summarize the paper's results as a table.
2. For "Numerous Rubus species have been recognized for producing diverse compounds that exhibit pharmacological properties, such as antidiabetic, antibacterial, anti-inflammatory, antioxidant, antidiarrheal, anti-tumor, neuroprotective, and wound-healing effects," mention references for each health-promoting property.
3. Figures 2 and 3 contain the same content. One of them is enough.
4. I suggest that you add a graphical abstract about Rubus fraxinifolius' medical properties.
