Potential competing interests: No potential competing interests to declare.

I found the study, methodology, and results interesting. However, I am afraid it is not internationalized enough to be published in a global journal. So, it must be improved with some more international literature review, as well as a discussion of the results within the global literature. See example:

Georgieva, S. (2022). WOMEN'S ENTREPRENEURSHIP–SEGMENTATION of women in Poland and the EU: quantitative analysis. *Polish Journal of Management Studies* 9, 217-224.

Alabduljader, S. A. (2022). THE IMPACT OF THE QUALITY OF WORK-LIFE ON REDUCING OCCUPATIONAL BURNOUT AMONG WORKERS. *Polish Journal of Management Studies* 26(2), 24-41.

Please add some more practical recommendations.
