Insulin-resistance syndrome type B

INSERM

Source

INSERM. (1999). *Orphanet: an online rare disease and orphan drug data base*. [Insulin-resistance syndrome type B](#). ORPHA:2298

Type B insulin-resistance syndrome belongs to the group of extreme insulin-resistance syndromes (which includes leprechaunism, the lipodystrophies, Rabson-Mendenhall syndrome, and type A insulin resistance syndrome; see these terms) and occurs in the context of immune dysfunction.
