

Review of: "Effect of Supplementation with *Moringa oleifera* on Antioxidant and Oxidative Stress Biomarkers of Infertile Women: A Pilot Open-Label Randomized Clinical Trial"

Osebhahiemen Ibukun

Potential competing interests: No potential competing interests to declare.

1. Abstract (background): Kindly replace "deplete" with 'few'
2. Abstract (methodology): Kindly replace "after 4 weeks post supplementation" with 'after 4 weeks of supplementation'
3. Abstract (results): Kindly replace " $p > 0.05$ " with ' $p < 0.05$ ' and it should be written immediately after 'significantly higher'
4. INTRODUCTION: Insert a reference in paragraph 2. Paragraph 4: Kindly remove the line and extra bracket from the reference and check the references all through the work. Please italicize all 'et al' and all botanical names. Last paragraph: Kindly use the past tense as 'this study was aimed at'
5. METHODOLOGY: "Purchase of supplement" to be replaced with 'supplement'. Kindly specify the country of manufacture, product details such as brand name, and concentration (e.g., 80% v/v). Data analysis: Kindly delete 'compatible' from the first sentence. Kindly write 'student t-test,' i.e., remove A. " $p < 0.05$," p should be in lower case. 'Of the mean' should be deleted from the last sentence
6. RESULTS: Table 2: Kindly add "statistically" to "significant." Tables 1 and 2: What do the t-test values in column 4 indicate?
7. DISCUSSION: Insert a reference in the first paragraph. Brzenzinski 1987 is too old; please use a more recent reference in the discussion section. Kindly write MO in full at first usage and put MO in brackets before using MO as an abbreviation in the work. Last paragraph, the first sentence: Kindly replace "depleted" with "few" and use a full stop after it, not a semicolon
