

Review of: "Discourse on the Sugar-Sweetened Beverages Tax in Indonesia: The Multistakeholder and Consumers' Perspectives"

Mohtar Rasyid

Potential competing interests: No potential competing interests to declare.

Research on SSB tax is very interesting and I encourage this paper to be accepted. There are some defects for improvement:

1. Explain in more detail about the stages of the methodology so as not to raise doubts for the reader.
2. Describe the contribution of this research to the possibility of developing further research in the future.
