The article is a great work and it has potential to add to the available literature on the subject title. However, there required few minor changes as below,

Paragraph no 3, in line 01; The comparison remained unclear and I suggest to add a couple of lines to make a clear image of the point.

Paragraph no 3, line 03; Mention current or latest updated cases and referrals if possible.

Decentralization of Health System

Paragraph no 01, line 01; Clarify the three areas of the working plan.

Conclusion

Line 03; Additional research..... various reform traces. Here it is better to write between various dimensions of healthcare reforms.

My best wishes for the researcher and the team.
