There are some suggestions for the authors to improve the quality of the paper

1. The introduction must define the article's contributions, present previous work, and the problems that this paper solves.
It should also include a list of comparable works.
2. The method section is not well-detailed. It should encompass descriptions of innovative approaches to convince the reader of the accuracy of the methods employed.
3. Authors must place the paper in the proper context by citing relevant papers.
4. Authors should highlight the advantages and drawbacks of the proposed method in a comparative manner
5. The discussion must consider emphasizing the perspectives and opinions of the authors.
