

# Review of: "Revitalizing Key Conditions and Integrated Watershed Management Approach to Sustain Water Availability and Agriculture in Semi-Arid Regions"

Pandith Madhnure

Potential competing interests: No potential competing interests to declare.

The paper submitted is of theoretical in nature and no examples are given from similar environments or from the SSA. Many countries having similar conditions have adopted IWSM approach eg in India many schemes have been implemented by govt of India. The 4 key conditions given by the author are praiseworthy. As the paper is of more theoritical in nature no comments are given. can be accepted with practical examples from the similar geoenvironment.
