

# Review of: "Perceptions and Attitudes about COVID-19 Vaccines Regarding Vaccine Intention and Hesitancy of Attendants of a Healthcare Center in Northern Cyprus"

Rajesh Kumar

Potential competing interests: No potential competing interests to declare.

A piece of good work. However there are many more studies from India and other parts of the globe need to be incorporated to make it more holistic and comprehensive. I am suggesting few more studies shall be included in the introduction part to make it one of the global work.
