

Review of: "Challenges in Reducing Maternal Mortality Rate in Pakistan"

Aalok Ranjan Chaurasia

Potential competing interests: No potential competing interests to declare.

This is not a research paper. There should be a conceptual and analytical framework to serve the basis for the analysis and conclusions derived from the analysis. Authors have identified variation in MMR within Pakistan but there is discussion. Are the factors cited applicable uniformly to all regions? If yes, then what are the reasons for variation? These are some of the questions that need to be answered.
