Review of: "Can we ensure Fire safety in Buildings that don't require NOC from the Fire Department?"

Gurkirpal Singh¹

1. Punjab Technical University, India

Dear Dr. Singh, your paper aims to bring attention to the fire safety of buildings that do not come under the purview of NOC. The National Building Code is to be followed by building category in fire safety concerns. Self-certification is an important tool for fire safety implementation by fixing the credibility of the person giving the certification. The paper can highlight specific urban areas where self-certification has been successfully implemented, like Kharar and Ludhiana. In houses in Kharar where self-certification was given, it was found that fire safety measures had been implemented, in contrast to the houses where self-certification was not given.
