

## Review of: "Self-Driving Development of Perfusion Processes for Monoclonal Antibody Production"

## Asaad Babker<sup>1</sup>

1 Gulf Medical University, United Arab Emirates

Potential competing interests: No potential competing interests to declare.

- Address any potential limitations or biases in the data generation process. Discuss how these might affect the results.
- Discuss how the results translate to real-world applications. Include practical examples or case studies demonstrating the system's applicability in bioprocess development.
- In the discussion, provide insights into how your findings could influence industry practices, including potential changes in operational protocols or cost-effectiveness.
