# M1b Stage Finding

National Cancer Institute

## Source

National Cancer Institute. *M1b Stage Finding*. NCI Thesaurus. Code C48702.

A TNM finding indicating the spread of cancer to distant anatomic sites. The definition of M1b TNM finding depends on the specific type of cancer that it refers to; for example, for colorectal cancer it refers to metastases in more than one organ/site or the peritoneum; for prostate cancer it refers to metastasis to bone(s); for bone cancer it refers to metastasis to distant sites other than lung.
