I could read some part of this manuscript. As far as I have read this manuscript, it has a lot of writing errors. It has many mistakes in the form of grammar, spelling, punctuation, or word choice that make your paper less readable and more difficult to understand. So, it was difficult for me to continue and finish reading the manuscript. I have highlighted some sentences that need revision in the manuscript. However, I couldn't read all the manuscript because of many mistakes. It is not acceptable in this format.
