

Short Communication

[Withdrawn] Genomic Testing of Clark's Theory of the British Industrial Revolution: A Note on Statistical Accuracy and Power

Gregory Connor¹

1. Independent researcher

This preprint has been withdrawn.

This preprint has been withdrawn at the request of its author due to a technical error in the Appendix. Specifically, the imposed conditions for finding the maximum likelihood estimator were incorrectly formulated, rendering the maximum likelihood analysis invalid. The author has since identified the error and no longer stands by the maximum likelihood analysis originally presented.
