The paper is very insightful and informative. These is some suggestion to author(s) to further improve the paper.

1. Table 1 is not properly displayed
2. Section 2.3.3 is displaced.
3. What is STEM? Suggested to put in full before shortened in acronym.
4. Suggested that the author to start a sentence with wording compared to start with numbers. (in section 3.2)
5. What is NSO? Suggested to put in full before shortened in acronym.
6. Not properly displayed Table 3
7. Figure 3,4,5,6 is not propoerly labeled especially the axis
8. The style of citation can be improved
