Review of: [Maternal Misconceptions Against Infant Sunlight Exposure Are Still Bottlenecks in Northwest Ethiopia, by 2022](#)

[Numan Hameed](#)

In the abstract, in conclusion, you said that knowledge and practice are good, but in recommendations, you said (According to our study, participants did not have good knowledge and practice regarding sunlight exposure of infants)??

The introduction is too long; instead, you may use some of this information in the discussion section to compare it with your study.

Results

In table 3,

Frequently, do you expose (N=233)- how frequently do you expose him.

In the discussion, you did not compare with other surrounding countries and international studies.

Some of the references were old; you need to add new references from international studies.
