# Shipping Designee

National Cancer Institute

## Source

National Cancer Institute. *Shipping Designee*. NCI Thesaurus. Code C51871.

A person of contact that denotes where, and to whom pharmaceuticals are to be shipped. The person is assigned by the principal investigator and registered with the NCI CTEP Pharmaceutical Management Branch (PMB) as a distributor of investigational new drugs (INDs) for all NCI-sponsored trials. Additionally, this person is authorized to place orders for investigational agents with PMB, requests drug transfers, and maintains drug inventory documentation at the clinical site. Investigational agents are shipped from the PMB directly to the institution or the investigator's practice site where the agent will be prepared and administered.
