

Review of: "Stellate ganglion block for anosmia and taste disturbance due to Long-COVID"

yasemin hosgoren alici

Potential competing interests: The author(s) declared that no potential competing interests exist.

It was an interesting case report but i have some suggestions;

- the discussion is only over anosmia, either the loss of taste should be removed from the title or the loss of taste should be included in the discussion
- I think it would be useful to add the following article on this subject to the discussion
<https://doi.org/10.1016/j.jneuroim.2021.577784>
