# Boswellia serrata Extract

National Cancer Institute

## Source

National Cancer Institute. *Boswellia serrata Extract*. NCI Thesaurus. Code C49089.

A standardized extract derived from the plant *Boswellia serrata* of the family Burseraceae with anti-inflammatory activity. *Boswellia serrata* extract contains terpenoid boswellic acids, which are potent inhibitors of 5-lipoxygenase activity and, so, leukotriene synthesis.
