

Review of: "In-Vitro Antibacterial Activity of some Ganoderma Species: A Review"

Viviana Roman

Potential competing interests: No potential competing interests to declare.

First of all, this mini-review looks like a sketch of a future review.

Secondly, he has a lot of work to do on the text editing side:

- grammatical disagreements
- lack of punctuation: periods, commas, spaces
- needs paraphrasing for clarity
- Misuse nouns/verbs (e.g., when bacteria were subjected to CuONPs).
- inconsistency in the use of abbreviations (eg Ganoderma A and B; Ganoderma applantum or australe? and B comes from Ganoderma bonisense?)
- gram-positive/grampositive or Gram-positive?
