Aggregate QTca Interval

National Cancer Institute

Source

National Cancer Institute. *Aggregate QTca Interval*. NCI Thesaurus. Code C124332.

The correction on the aggregate of QT intervals using individual probabilistic QT/RR slopes for each subject based on the measurement of QT intervals from multiple beats within a single ECG or from a defined time period within a continuous ECG. The method of aggregation, which can vary, is typically a measure of central tendency, such as mean.
