Clino-San Vaginal Lubricant

National Cancer Institute

Source

National Cancer Institute. *Clino-San Vaginal Lubricant*. NCI Thesaurus. Code C74018.

A vaginal lubricant formulated as a topical gel used to prevent and treat vaginal dryness. With a pH similar to that of normal vaginal discharge, Clino-San vaginal lubricant may reduce dryness, pain and irritation often caused by insufficient vaginal discharge due to atrophy of the vulvovaginal mucosa.
