Potential competing interests: No potential competing interests to declare.

**The work provides relevant information about the diet of the species *Periophthalmus Barbarus*, but the introduction should contain more information about papers that have already been written on the feeding of the species.**

**Update the names of the species used as bait within the traps (Integrated Taxonomic Information System (itis.gov)) and write in accordance with the International Code of Zoological Nomenclature.**

**In the tables, add Crustacea before Copepoda and Cladocera.**
