Review report of Financial Repercussions of Carbon Emissions and Depletion of Natural Resources: The Role of Fiscal Policy in Determining Health Expenditures

1. The abstract needs to be rewritten
2. Many sentences and paragraphs lack references.
3. The introduction section needs to be expanded.
4. In the introduction section research question and the motivation of the study is not clear.
5. The naming of each section must be modified.
6. The methodology section should be modified. The author can refer to similar articles
7. Support your results (in section Empirical Findings) with relevant studies. This section needs more explanation.
8. The author should provide more information in the Conclusion and Policy Implications section with regard to review literature in order to create an adequate background for other research studies.
9. Limitations of the study for future research should be mentioned.
