Ampulla of Vater Mixed Adenoneuroendocrine Carcinoma

National Cancer Institute

Source

National Cancer Institute. *Ampulla of Vater Mixed Adenoneuroendocrine Carcinoma*. NCI Thesaurus. Code C95986.

A carcinoma that arises from the ampulla of Vater and the periampullary region. It is characterized by the presence of a malignant glandular epithelial component and a malignant neuroendocrine component. At least 30 percent of either component should be present for the diagnosis to be made.
