Dear authors

Congratulations on the research.

The research is very interesting and the theme is relevant.

Title: OK

Abstract: The results provided information on group characteristics.

Introduction: This section is clear, and the relevancy of the study is highlighted.

Methods

The methods section is well organized, and all steps to perform a systematic review were presented.

- Reported the methodologic guidance of this mixed methods systematic review (e.g., JBI)
- Study selection - How were duplicate articles managed?

Results.

They present the results in an organized way, but this section is a bit long; a better systematization would make it easier to read.

Discussion.

Relevant

Limitations: ok

Conclusion: Ok

Organization and style of presentation: good.

Good luck, and thank you very much for giving me a chance to review.
