Though this is a very general manuscript on the ancient Indian Knowledge system, it can be useful if the author incorporate the role of native Indian medicinal plants as a major raw materials for formulating traditional medicines. Explain briefly AYUSH systems in introduction. The authors are advised to read and refer following articles in their manuscript:

<https://doi.org/10.1016/j.jarmap.2023.100486>

Quality risk assessment on traditional immunity booster plants cultivators in Punjab, India

doi: [10.56042/ijtk.v22i2.46379](https://doi.org/10.56042/ijtk.v22i2.46379)

Singh, P. A., Bajwa, N., & Baldi, A. (2021). Possible role of traditional systems of medicine to manage covid-19: A review, *Israel Journal of Plant Sciences* 68(1-2), 3-28. doi: <https://doi.org/10.1163/22238980-bja10021>

After these incorporations, the manuscript can be accepted by the journal.
