Review of: "A Master Equation for Screening in Luminal Horndeski Gravity"

John Bayron Orjuela Quintana[1]

1. Universidad del Valle, Cali, Colombia

Dear Authors,

Please find my complete referee report for the manuscript attached.

I would like to congratulate the authors on a very timely and thoroughly executed piece of work, along with the excellent software toolkits provided. My report contains a few constructive suggestions regarding literature context, mathematical typography, and plot aesthetics to help polish the manuscript for its final publication.

Kind regards.
