

Review of: "Between Avoidance and the Need to Learn: Emerging Dynamics in the First Weeks of Classes in Higher Education in Angola"

Neha Bothra

Potential competing interests: No potential competing interests to declare.

The study is close attempt to justify the theme. Perhaps, this draft can be further enriched if:

1. The Background and Research Problems could be induced in the initial few lines.
2. The Research Objectives also need to be highlighted in the primary stages of discussions.
3. The Mind Map of all the possibles causes and antecedents in the research design can be drawn to conclude a Grounded Reality Theory.
4. The sources of all the Figures need to be mentioned.
5. The Non-Technical summary of the findings has been remotely enumerated.
6. The References need to be listed completing, there seem to be few incomplete references.
