

Review of: "Formal Verification of a Change Control Process in Project Management"

Pooja Yadav

Potential competing interests: No potential competing interests to declare.

The article demonstrates the use of temporal logic for formal verification of properties of Internal Change Control (ICC) processes. The article is well written clearly explaining the objectives and the scope of work. The authors need to cite some recent references and improve the quality of figures. Also, the abstract should clearly outline the methodology used to attain the objectives one one or two sentences.
