

Review of: "A Study of the Urban Nightlife of Delhi and its Impact on Safety"

Guolei Zhou

Potential competing interests: No potential competing interests to declare.

For a city, safety and nightlife go hand in hand. It's a very interesting topic, but it's not very academic. This paper is more like a working report than an academic article. I think the abstract needs to be refined. The authors only state what was done and the main conclusions are missing. Authors need to cite more from the academic literature. Case studies are necessary, but they need to be used to crystallize the author's own ideas and conclusions.
