Potential competing interests: No potential competing interests to declare.

The idea is novel. I am very happy to have read your novel idea.

I have a few questions, and I want the authors to provide the justifications.

1. I'd like to know why they chose a certain coloration. Was it because of any medical color-coded guidelines?
2. Please provide additional details about the bracelet material's quality, weight, sweat-proofing, allergy precautions, reusability, discard procedures, number of hrs. of minimum or maximum usage, etc.
3. As the bracelet is for medical purposes, I recommend that the authors provide a detailed table describing an in-depth case study for at least 100 users.
