First, I would appreciate author interest to write the Article above. According to my point of view, this issues is very well issues and attached to our social issues related child matters. Hence, it needs to be found to minimize numbers of cases. To strengthen the points on the article, i suggest authors to develop and figure out root of problem such as:

1. research method, because it will strengthen authors point that mentioned in article.
2. spesific addressing parties that authors suggest to concerned on.
3. It would be better if authors write the manuscript in certain ways based on the publisher rules for consistency.

Thankyou.
