# Congenital Insensitivity to Pain with Anhidrosis

National Cancer Institute

## Source

National Cancer Institute. *Congenital Insensitivity to Pain with Anhidrosis*. NCI Thesaurus. Code C118633.

A rare, autosomal recessive inherited disorder caused by mutations in the NTRK1 gene. It is characterized by inability to feel pain and temperature that leads to repeated unintentional self-injuries, and decreased or absent sweating that leads to hyperpyrexia and febrile seizures.
