Potential competing interests: No potential competing interests to declare.

1. The manuscript may benefit from evidence-based research to justify the importance of it and the structural elements of the platform.
2. The use of certain terminology, with no provision of explanation, makes the review difficult.
3. The manuscript needs editing for the use of the English language.
4. The manuscript may benefit from a better organization of the presentation and the implementation plan of the platform.
5. The authors need to restrict the writing in the English language rather than use more than one language in the writing of the text.

Yours sincerely,

Theano Kokkinaki
