# Stanford Binet Intelligence Test

National Cancer Institute

## Source

National Cancer Institute. *Stanford Binet Intelligence Test*. NCI Thesaurus. Code C86973.

A standardized test to evaluate intelligence and cognitive abilities, suitable for both children and adults. It assesses five factors: Fluid Reasoning, Knowledge, Quantitative Reasoning, Visual-Spatial Processing, and Working Memory. In order to accurately assess individuals with deafness, limited English, or communication disorders, each factor is assessed in both verbal and nonverbal domains.
