Thank you for giving me the opportunity to revise this valuable manuscript

First at abstract please start with a small paragraph about the background of the study

introduction, please separate it into many paragraphs as it is so hard to read it as one paragraph

you talk about urinary incontinence then about radiation therapy then UI again

so if you please talk about radiation then UI in

which type of UI affect female with cervical cancer ???

Material and methods

the age is very wide from 18- 65 . is it acceptable ?

if you please add this as appendix (International Consultation on Incontinence Questionnaire Urinary Incontinence Short Form)

your sample consists of underweight and obese. from my point of view there will be a bias in your sample

the limitation must be elaborated and rewritten
