**Potential competing interests:** No potential competing interests to declare.

Good work!! However, attend to the following queries:

- 1) What is the threshold of Al in the soil? Let the threshold reflect in the Abstract.
- 2) Introduction section is missing. This is an important parameter.
- 3) Citation is lacking in the second paragraph of the first section.
- 4) Sections 1 and 2 should be merged.
- 5) Figures 1 and 2 not mentioned in the body of the text.
- 6) Remediation strategies not enough; please add more.
- 7) Let there be a Conclusion section before the Future Outlook section.
