

Review of: "Expectation of Life at Birth by Sex and Area of Residence in India and Bigger States/UT's (2013-2017): A Review"

Kalpita Shringarpure Brahme

Potential competing interests: No potential competing interests to declare.

This article is well-written; however, a few points to consider:

1. Introduction needs to be more detailed.
2. Details of methods and data acquisition need to be given.
3. Results need to be crisp, and reasons for the findings need to be put under the discussion section.
