Right Bundle Branch Block by ECG Finding

National Cancer Institute

Source

National Cancer Institute. *Right Bundle Branch Block by ECG Finding*. NCI Thesaurus. Code C62270.

An electrocardiographic finding of a wide QRS complex with evidence of delayed conduction to the right ventricle, manifested by a widened initial portion of the QRS in V1 and V2, a widened S wave in V5, V6, I and aVL, and with QRS duration greater than or equal to 120 ms. An RsR' complex is typically present in leads V1 and V2. (CDISC)
