Addiction Ontology

Definition: A material entity that bears a commodity role.

Informal definition: A substance that is not an object that has potential for economic value.

Curator note: This is taken from the Product Life Cycle Ontologies specified in the source field. It cannot yet be important because that ontology is not yet set up to allow this.

This definition was imported from the Addiction Ontology (see <https://addictovocab.org/>). Comments and suggestions for improvements are welcome using the Qeios review system.

Definitions imported from the Addiction Ontology (AddictO) are what are known as 'ontological definitions'. See this article in Qeios for an explanation <https://www.qeios.com/read/YGIF9B>.

Ontological definitions can sometimes be hard to read. In those cases we also include an informal definition.

Definitions also often require elaboration to make it clear how they should be used and what they include. In those cases we include a comment.

Also, definitions sometimes require an explanation as to how they came about to help users understand how they relate to alternative definitions. In those cases we include a curator note.
