National Cancer Institute. *FIGO Stage IC*. NCI Thesaurus. Code C96251.

A FIGO stage term that applies to gynecologic cancers. For cervical cancer, there is no FIGO stage IC; for endometrial cancer, in the older FIGO classification stage scheme, it referred to invasion of more than a half of the myometrium. Stage IC for endometrial cancer has been eliminated in the most recent (2010) FIGO classification stage scheme.
