

Review of: "[Viewpoint] World Immunization Week: Immunization of Healthcare Workers – A reminder"

Dr. Marjan Assefi¹

¹ North Carolina State University

Potential competing interests: No potential competing interests to declare.

The paper presents a clever way to deal with immunization of healthcare workers and contributes significant experiences to the field. The exploration question is plainly characterized, and the technique is appropriate to address it. Generally speaking, the paper is elegantly composed and makes a critical commitment to the writing. For certain updates to address the recognized limits and further foster the conversation, I would suggest it for distribution.
