# PAS Domain-Containing Serine/Threonine-Protein Kinase

National Cancer Institute

## Source

National Cancer Institute. *PAS Domain-Containing Serine/Threonine-Protein Kinase*. NCI Thesaurus. Code C132045.

PAS domain-containing serine/threonine-protein kinase (1323 aa, ~143 kDa) is encoded by the human PASK gene. This protein is involved in the phosphorylation of proteins that play a role in energy homeostasis.
