Potential competing interests: No potential competing interests to declare.

The paper can be published following minor reviews

Page 3 – Third paragraph – Wrong citation – The article by Grooves and Timothy (2001) was published way before the launch of Facebook, Instagram and WhatsApp. The authors may need to look for a more suitable citation.

I recommend the removal of phrases such as 'in order to' and replacing them with 'to'

I recommend running the article in Grammarly to improve the grammar.

Page 3 – Last paragraph – '...more than 70 000 tonnes of waste every year.' The authors need to quote a source.

Page 4 – First paragraph – the sentence starting with 'Leave their garbage,...' can start with 'They leave..'

Research Methods

'...study site who met...' can be rephrased to '...who visited the study site during the 5-day...'

Page 6 - last line: Instead of 'The following picture...' – Figure 1 shows a picture collage...' can be used.

Figure 1: The plant in the picture is not an Aloe Vera. The authors need to find the correct name. the same comment applies on page 10.
