

Review of: "Risk-Return Analysis of Select Crypto Currencies: During 2018-2022"

Viviane de Senna

Potential competing interests: No potential competing interests to declare.

The structure of the article needs to be improved. Sources for justifications are lacking in the Introduction and the use of colloquial expressions should be avoided. The reference presented is composed of few and old references considering the selected theme.

The methodology needs to describe how the article was developed and be separate from the results obtained. The source of the data is not clear. The article does not reach the proposed objective, the analysis is very simple and there is no relevant or innovative contribution to the literature.
